DETAILED ACTION

Election/Restrictions

- 1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - Claims 1-24 and 53-63, drawn to replacement of elements when
 presenting a document for display, classified in class 715, subclass 540.
 - II. Claims 25-41, drawn to generation of a data structure, in this case a list of elements, classified in class 707, subclass 102.
 - III. Claims 42, 43, and 64-66, drawn to manipulating and editing a data structure, in this case manipulating a list, classified in class 707, subclass 101.
 - IV. Claims 44-51, drawn to interactive television system, classified in class725, subclass 109.
 - V. Claim 52, drawn to a television remote control with navigation functionality, classified in class 348, subclass 114.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I and II-V are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because the Group I does not require a

Application/Control Number: 10/719,528

Art Unit: 2178

remote control or an interactive television system, nor does it require adding elements not included on a generated list or deleting elements of a generated list. The subcombinations have separate utility such as simply generating and manipulating a list without intent to create a final document, a TV remote for navigation, and an interactive television system for viewing content.

- 3. Because these inventions are independent or distinct for the reasons given above and have acquired a separate status in the art in view of their different classification and the inventions require a different field of search (see MPEP § 808.02), restriction for examination purposes as indicated is proper.
- 4. Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To reserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Should applicant traverse on the ground that the inventions or species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the inventions or species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions

Application/Control Number: 10/719,528

Art Unit: 2178

unpatentable over the prior art, the evidence or admission may be used in a rejection

under 35 U.S.C.103(a) of the other invention.

Conclusion

Any inquiry concerning this communication or earlier communications from the

examiner should be directed to Joshua D. Campbell whose telephone number is (571)

272-4133. The examiner can normally be reached on M-F (7:30 AM - 4:00 PM).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's

supervisor, Stephen Hong can be reached on (571) 272-4124. The fax phone number

for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the

Patent Application Information Retrieval (PAIR) system. Status information for

published applications may be obtained from either Private PAIR or Public PAIR.

Status information for unpublished applications is available through Private PAIR only.

For more information about the PAIR system, see http://pair-direct.uspto.gov. Should

you have questions on access to the Private PAIR system, contact the Electronic

Business Center (EBC) at 866-217-9197 (toll-free).
